

CAUTION: Exercise caution when handling the blade attachment, as the blades may get hot during use. If blending warm ingredients, take care when removing the blade attachment, as pressure build-up could cause the contents of the blender to spill.

WARNING: Maximum operation time is approx. 1 minute. Allow to cool for approx. 3 minutes before using the blender again.

Troubleshooting

Problem	Solution
The blender will not operate.	<p>Ensure the blender is plugged into the mains power supply.</p> <p>Ensure the glass jug and jug lid are fully secured in place.</p> <p>The thermal overheat protection may have kicked in. Turn the blender off at the socket, remove some of the ingredients and wait for approx. 30 minutes before reusing.</p> <p>Check the fuse is in working order and does not need to be replaced.</p>
The drink still contains lumps or has not blended well.	<p>Reduce the amount of solid ingredients in the jug or add more liquid.</p> <p>Use the pulse function in short bursts for harder ingredients and ice.</p>
The drink is watery and lacking flavour.	<p>Use the pulse function in short bursts to ensure the ingredients are not over-blended.</p>

Storage

Reassemble the blender.

Check that the blender is cool, clean and dry before storing in a cool, dry place.

Never wrap the cord tightly around the blender; wrap it loosely to avoid causing damage.

Specifications

Product code: EK6564

Input: 220–240 V ~ 50/60 Hz

Output: 550 W

SAFETY INSTRUCTIONS

- When using electrical appliances, basic safety precautions should always be followed.
- Check that the voltage indicated on the rating plate corresponds with that of the local network before connecting the appliance to the mains power supply.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities and knowledge, if they have been supervised/instructed and understand the hazards involved.
- Children shall not play with the appliance.
- Children should not perform cleaning or user maintenance, unless they are older than 8 and supervised.
- This appliance is not a toy.
- If the power supply cord, plug or any part of the appliance is malfunctioning or if it has been dropped or damaged, cease using the product immediately to avoid potential injury.
- This appliance contains no user serviceable parts, only a qualified electrician should carry out repairs. Improper repairs may place the user at risk of harm.
- Keep the appliance and its power supply cord out of the reach of children.
- Keep the appliance out of the reach of children when it is switched on or cooling down.
- Keep the appliance and its power supply cord away from heat or sharp edges that could cause damage.
- Keep the power supply cord away from any parts of the appliance that may become hot during use.
- Keep the appliance away from other heat emitting appliances.
- Do not allow the power supply cord to hang over worktops, touch hot surfaces or become twisted.
- Do not immerse the electrical components of this appliance in water or any other liquid.
- Do not operate the appliance with wet hands or if any connections are wet.
- If this appliance falls or accidentally becomes immersed in water, unplug it from the wall outlet immediately. Do not reach into the water.
- Do not leave the appliance unattended whilst connected to the mains power supply.
- Do not remove the appliance from the mains power supply by pulling the cord; switch it off and remove the plug by hand.
- Do not pull or carry the appliance by its power supply cord.
- Do not use the appliance for anything other than its intended use.
- Do not use any accessories other than those supplied.
- Do not use any damaged accessories.
- Do not use this appliance outdoors.
- Do not store the appliance in direct sunlight or in high humidity conditions.
- Do not move the appliance whilst it is in use.
- Do not touch any moving parts on this appliance during use, as this could cause injury.
- Do not touch any sections of the appliance that may become hot during use, as this could cause injury.
- Always unplug the appliance after use and ensure it has cooled fully before any cleaning, user maintenance or storing away.

CAUTION: Keep hands, fingers, hair and any loose clothing away from the rotating tools of the appliance.

WARNING: Do not touch sharp blades.

Dos and don'ts

DO:

Switch off the blender and disconnect it from the mains power supply before changing or fitting attachments.

Exercise caution when attaching, removing, cleaning or storing the blade attachment.

Check that the blade attachment is securely fitted before use.

DO NOT:

Use attachments if they are loose, damaged or broken.

Attempt to remove the blade attachment until the blades have fully stopped moving.

Blend dry ingredients for more than approx. 60 seconds at a time.

Dry blend ice cubes.

Blend hot liquid or food.

Never exceed the max. fill mark when adding ingredients to the glass jug, as this could cause spillage and may damage the blender.

The blender must not be operated when the glass jug is empty, cracked or broken.

Do not clean the glass jug with boiling water.

Care and maintenance

STEP 1: Switch off and unplug the blender from the mains power supply before performing any cleaning or user maintenance.

STEP 2: Wipe the blender base unit with a soft, damp cloth and allow to dry thoroughly.

STEP 3: To disassemble the blade attachment for cleaning, place the glass jug upside down on a flat surface and position the filler cap around the base of the unit, then turn in an anticlockwise direction.

STEP 4: With the blade attachment removed, wash the glass jug in warm, soapy water, then rinse and dry thoroughly.

STEP 5: Never touch the blades; using extreme caution, wash the blade attachment with a brush or sponge under a running tap and allow to air dry.

STEP 6: To replace the blade attachment, place into the blender and turn in a clockwise direction until securely fitted.

Never use harsh or abrasive detergents or scourers to clean the blender, as this could cause damage.

NOTE: Always clean the blender immediately after each use.

The blender is not suitable for use in a dishwasher.
The blade attachment is provided fully assembled.

Instructions for use

Before first use

Before connecting to the mains power supply, clean the blender following the instructions in the section entitled '**Care and maintenance**'.

NOTE: When using the blender for the first time, a slight smoke or odour may be emitted. This is normal and will soon subside. Allow for sufficient ventilation around the blender.

Using the blender

STEP 1: Position the blender base unit onto a flat, stable surface at a height that is comfortable for the user.

STEP 2: Place the glass jug on top of the blender base unit.

STEP 3: Chop the ingredients to be blended into small pieces and then place them into the glass jug. Make sure they do not exceed the max. fill mark.

STEP 4: Pour the required amount of liquid into the glass jug. Make sure it does not exceed the max. fill mark. The filler cap can be used as a small measuring cup.

STEP 5: Fit the jug lid and filler cap onto the glass jug and turn the filler cap in a clockwise direction until it locks into place. Plug in and switch on the blender at the mains power supply.

STEP 6: To blend the ingredients, turn the control dial to the desired speed setting (**1**, **2**). Turn the dial to '**P**' to activate pulse function and release to stop it. The pulse function provides quick bursts of speed, useful for more solid foods.

STEP 7: Stop the blending process by turning the control dial to '**O**'.

STEP 8: Switch off and unplug the blender from the mains power supply.

STEP 9: Detach the glass jug from the blender base unit by lifting up and away from the blender base unit.

NOTE: Ingredients can be added whilst the blender is in operation via the filler cap. Twist the filler cap in an anticlockwise direction and remove. The blender is fitted with a thermal overheat protection. If the blender gets too hot, it will cut out. To continue, switch the blender off at the socket, remove some of the foodstuffs and wait for approx. 30 minutes before continuing. The filler cap can be used to remove the blade attachment. Use the filler cap to detach the blade attachment by twisting in an anticlockwise direction and then remove the blade by carefully pulling it out of the glass jug blender. Twist the blade attachment clockwise to reattach. Chop all ingredients into approx. 2 cm pieces before blending. Add a small amount of cold liquid or reduce the quantity of the ingredients in the glass jug if the blades are not running smoothly. If the ingredients do not blend evenly, remove the glass jug from the blender base unit. Shake the glass jug to redistribute the ingredients and then blend once more.
